## Heartland Introduces the Cookmaster and Artisan

Cambridge, Ontario (Canada): Heartland Appliances Inc has added two more stunning cooking ranges to its already luxurious cooking appliance family. These cast iron beauties offered in either wood burning or gas models will bring a gentle, comforting warmth to your home and kitchen.

The Heartland Cookmaster is a unique cooking range which features a powerful thermostatically controlled 50,000 BTU gas burner which is designed to heat up quickly. Offered in a 36 inch wide model it fits nicely between standard kitchen cabinets. The Heartland Artisan is a woodburning range which offers central heating, domestic hot water and cooking all in one. Add it to your kitchen or create a beautiful stand alone piece in your cottage or log home.

Both ranges offer two distinct ovens, one is a roasting and baking oven and the other is a simmering and warming oven. The ovens are vented so you can prepare two different savory dishes without worrying about flavour transfer. The Heartland Cookmaster and Artisan are made of cast iron which provides gentle, radiant heat to both the ovens and the hotplates. The unique internal cast iron structure surrounds food in heat from all directions which lock flavours in without drying.

The hotplate is a solid one piece cast iron sheet that can accommodate up to five saucepan, the stylish insulated lids are a truly unique feature to any range, when in the closed position they retain the hotplate heat leaving the highly polished finish warm to the touch. When open heat radiates into the room.

There is nothing these ranges can not do, it's a one of a kind piece that complements every kitchen decor. Their rich 12 colour pallet options are a result of a time honoured enameling process in which three separate coats are applied by hand. Each unit is hand made and repeatedly inspected to ensure the highest quality you have come to expect from Heartland. You will never look at a cooking range the same after inviting a Heartland Cookmaster or Artisan into your home. See the attached sheet for key product features and images of the new Heartland Cookmaster or Artisan.

##
